Trees New Jersey (formerly New Jersey ReLeaf) - Professional Advisory Committee	
Congress on New Urbanism	

Background and Experience

James Gilday's experience in the field of landscape architecture is a culmination of project management, design, and on-site experience for a variety of project types in New York, New Jersey, Connecticut, Pennsylvania, and Wyoming.

Early in his career as Senior Designer for Hodnett/Abbingtion-Ney Associates, Mr. Gilday was responsible for the design and management of a majority of the firm's projects including Long Branch Housing Authority Recreation Project, Holmdel Farms Corporate Center, and Old Marlton Streetscape Improvement Project. Mr. Gilday was also involved as an integral part of the firm's design team for other large scale projects including The Deal test Site Park and Downtown Freehold Streetscape Improvement Projects.

Acquiring a strong working knowledge of design, site planning, construction, and detailing has enabled Mr. Gilday to collaborate as a primary design team member with nationally recognized consultants on several long term large scale projects including SkyView Parc, Flushing, NY, Oceana -Brighton Beach Avenue Residential Development, Brooklyn, NY; Brooklyn Renaissance Plaza Expansion, Brooklyn, New York; Kessler Care Center, Cedar Grove, NJ; Avalon Fort Greene, Brooklyn, NY; Thayne Village Center Master Plan (PUD), Thayne, Wyoming, and Sage Meadows - Teton County Housing Authority, Jackson, Wyoming.

In private practice, Mr. Gilday has applied his professional expertise and technological skills to the design process which has allowed for the successful design, document production, and presentation exhibits for multiple projects for the Bristol-Myers Squibb Company Headquarters and satellite corporate campuses throughout New Jersey, and others such as Adams Street Renovation, Brooklyn, NY, Arbor Glen CCRC, Bridgewater, NJ, and Downtown Morristown Streetscape Improvement Projects Phase I, II and III, Morristown, NJ.

Noting similar professional goals and a successful affiliation as a Senior Designer with Raymond J. Hodnett of Hodnett/Abbingtion-Ney Associates, Mr. Hodnett and Mr. Gilday joined along with Mark A. Catanese to form Hodnett Gilday & Partners in 1996. On January 6, 2000, the firm of Hodnett Gilday & Partners evolved to form the **Moss Gilday Group**, a firm focused on providing the highest level of landscape architectural design, detailing, and site planning services for a wide range of project types.
